## **Accessibility Plan**

### **Introduction**

This Accessibility Policy and Plan are drawn up in compliance with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. School Governors are accountable for ensuring the implementation, review and reporting on progress of the Accessibility Plan over a prescribed period.

### **Definition of Disability**

Disability is defined by the Disability Discrimination Act 1995 (DDA): "A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day to day activities".

### **Key Objective**

To reduce and eliminate barriers to access to the curriculum and to full participation in the school community for pupils, pupil's parents and prospective pupils, with a disability.

### **Principles**

1. Compliance with the DDA is consistent with the school's aims and equal opportunities policy, and the operation of the school's SEN policy
2. The school recognises its duty under the DDA (as amended by the SENDA):
  - not to discriminate against disabled pupils in their admissions and exclusions, and provision of education and associated services
  - not to treat disabled pupils less favourably
  - to take reasonable steps to avoid putting disabled pupils at a substantial disadvantage
  - to publish an accessibility plan
3. In performing their duties, governors and staff will have regard to the DRC Code of Practice (2002)
4. The school recognises and values parents' knowledge of their child's disability and its effect on his/her ability to carry out normal activities, and respects the parents' and child's right to confidentiality
5. The school provides all children with a broad and balanced curriculum, differentiated and adjusted to meet the needs of individual pupils and their preferred learning styles; and endorses the key principles in the National Curriculum 2014 framework, which underpin the development of a more inclusive curriculum by; setting suitable learning challenges, responding to pupils' diverse learning needs and overcoming potential barriers to learning and assessment for individuals and groups of pupils.

**Activity**

This section outlines the main activities which the school undertakes, and is planning to undertake, to achieve the key objective (above).

**A) Education & related activities**

The school will continue to seek and follow the advice of LA services, such as specialist teacher advisers and SEN inspectors/advisers, and of appropriate health professionals from the local NHS Trusts. (See checklist provided on page 29 DfES Guidance "*Accessible Schools: Planning to increase access to schools for disabled pupils*")

**B) Physical environment**

The school will take account of the needs of pupils and visitors with physical difficulties and sensory impairments when planning and undertaking future improvements and refurbishments of the site and premises, such as improved access, lighting, acoustic treatment and colour schemes, and more accessible facilities and fittings. (See checklist on page 30 of DfES Guidance.)

**C) Provision of information**

The school will make itself aware of local services, including those provided through the LA, for providing information in alternative formats when required or requested. These are available from the school's SENCO or from the front office. (See checklist on page 30 of DfES Guidance.)

**Contextual Information**

Cheveley C of E Primary school was built in 1861 and has been enlarged twice since; once to incorporate the school Hall and Community Room and again to incorporate the Early Years/KS1 building, comprising two classrooms and toilets. The school site is a listed site. Access to the building is via steps although there is ramp access via the side of the Community Room and across the courtyard to both the school hall and the EYFS/KS1 building. The lower KS2 corridor can be accessed by a wheelchair from the playground. Within the main part of the building there is a small and fairly narrow flight of steps from the reception / Hall area to the lower corridor. No wheelchair ramp is in place and at present we have no wheelchair dependent pupils, parents or members of staff. Because of the narrowness of the steps and proximity of the girls toilet block specialist advice and guidance would have to be obtained regarding the fitting of a wheelchair access lift (rising platform) at these stairs. There is one disabled toilet on site which does not contain a hydraulic changing bed.

**Current range of known disabilities**

The school has children with a range of disabilities to include moderate and specific learning disabilities.

## Action Plan

### 1. Increasing access for disabled pupils to the school curriculum.

Improving teaching and learning lies at the heart of the school's work. Through self-review and Continuous Professional Development (CPD), we aim to enhance staff knowledge, skills and understanding to promote excellent teaching and learning for all children. We aim to meet every child's needs within mixed ability, inclusive classes.

It is a core value of the school that all children are enabled to participate fully in the broader life of the school. Consequently, all children have always been permitted to attend age relevant after school clubs, leisure and cultural activities and educational visits. The only exception would occur if a child had breached school rules when deprivation of club attendance may be used as a suitable short term sanction and to ensure the safety of others.

## 2. Improving access to the physical environment of the school

Cheveley Primary is continuing to grow and develop. It is hoped that we will be able to improve the facilities. Provision, in exceptional cases, will be negotiated when a pupil's needs are known. We have a wide range of equipment.

### 3. Improving the delivery of written information to disabled pupils.

This will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. Examples might include handouts, textbooks and information about school events. The information should take account of pupils' disabilities and pupils' and parents' preferred formats and be made available within a reasonable time frame.

In planning to make written information available to disabled pupils we again need to establish the current level of need and be able to respond to changes in the range of need. The school will need to identify agencies and sources of such materials to be able to make the provision when required. The school's ICT infrastructure will enable us to access a range of materials supportive to need.
